

*One of our most important rights as Americans is the freedom to access the healing arts services we judge best for ourselves.*

## Iowa Health Freedom Coalition

**There is more than one way to achieve wellness and prevent dis-ease.** But don't expect your medical doctor to tell you about the alternatives.

The natural, holistic healing arts offer effective, safe approaches to wellness and disease prevention that go far beyond the limitations of conventional medicine. **If you want to take charge of your health, you need to know about the vast range of healthcare options available through these approaches and the people who provide them.**

It can be difficult in Iowa to find information or a provider of natural, holistic healing arts approaches. If you haven't heard about these alternative approaches to wellness or haven't been able to find providers, it's because of legal restrictions created to promote the conventional medical system

**If you can organize a venue to share ideas, we can provide speakers** who can discuss the full gamut of topics in the natural, holistic healing arts and health freedom.
